

K-LOVE has been the best thing to happen to radio in this area in a long time. It fills a real void; no other station we can receive plays the music it plays, especially not 24 hours a day with no commercials and nothing we need to try to keep young ears from hearing. We have a Christian AM station, which just doesn't sound as good, plus they have a lot of non-music programming, so we really need both stations. The service provided by K-LOVE is truly in the public interest. The positive, encouraging music and talk, as it is heard by people all over town and all over the country, becomes a shared experience, a uniting force, and a real influence for good in many individual lives. Please don't change the way the FM translators work to bring us this wonderful alternative to the other radio stations that fill the airwaves.
